Summary

I am a web developer with expertise in front-end technologies such as HTML, CSS, and JavaScript, as well as back-end languages like Node.js and MongoDB. I have experience building responsive and dynamic websites using popular frameworks like React and jQuery. I have a strong eye for design and attention to detail, and am skilled in using version control systems like Git and deployment tools like AWS and Heroku. I stay up-to-date with the latest web development trends and am always looking to enhance my skills and contribute to my team.
